

김의경 | Euy-kyung KIM

한국에너지공단 경기지역 본부장

Gyeonggi Regional Headquarters Industry Division, Korea Energy Management

김의경은 한국에너지공단 경기지역본부장으로서 국가의 에너지전환정책을 추진하는 기관에서 30년간 근무하고 있으며, 산업에너지실장, 건물에너지실장, 효율기술실장, 신재생산업실장 등을 역임하였다. 특히, 국가에너지기본계획과 신재생에너지산업육성방안 등 정부의 중장기계획수립에 참여하여 왔다. 아울러, 정부(국토교통부, 과학기술부)에서 추진중인 국가혁신 프로젝트인 “스마트시티” 추진계획의 운영위원으로 활동하여 미래의 에너지절약형 도시건설에도 참여하고 있다. 또한, 국가기술표준원의 KS규격제정을 위한 기술심의회 위원으로 활동하여 국제규격의 흐름과 KS규격과의 부합화 등을 위한 활동으로 국내 에너지산업육성에 기여하고 있다. 특히, 지자체와의 협력관계 강화를 추진중에 있으며, 에너지분권화를 위하여 적극적으로 추진하고 있다.

Euy-kyung Kim is director at Gyeonggi Regional Headquarters Industry Division of the Korea Energy Management. He has been working over 30 years in the organization pushing for energy transition policy of the nation. He also worked as the head of industrial energy division, building energy division, efficient technology division and renewable industry division. Especially, he has been engaged in setting up several mid and long term plans including National Energy Basic Plan and Fostering Renewable Energy Industry by the government.

In addition, he is currently working as member of the steering committee of “Smart City”, a national innovation project pushed by the Ministry of Land, Infrastructure, and Transport, so he is participating in futuristic energy saving building establishment.

Kim is now serving as member of Technology Council for defining KS standards of the Korea Agency for Technology and Standards. In so doing, he engages in activities related to international standard trends and conformity with KS standards to make contribution to fostering the domestic energy industry. Especially, he has been focusing on enhancing relations with local governments and decentralization of energy.
